## RIVER AND STEAMBOAT MATTERS.

The river has risen nearly two inches last evening. A dispatch from Frankfort received at noon yesterday says the river there has risen 6 inches and was still rising. At Pittsburg it was also rising yesterday and raising hard. The indications now are very flattering for a full resumption of navigation. The weather is rainy.

The canal is now open and several boats have passed through. There is more water in it than there is on the bars between Cincinnati and Cairo.

The Nashville Whig of Saturday says:

The river continues to improve slowly. The body of the rise has passed down, but there will be water enough for small boats on the shoals for some time yet.

The S. P. Hibbard is the mailboat for Cincinnati to day and the Clifton is the Carrollton packet.

The light-draught packet Tennessee leaves for Cairo this evening and the Erie for New Orleans.

New Nashville Packet.—The fine steamer Diamond will go into the Nashville trade as soon as the stage of the river will admit. She is a fine boat and has splendid accommodations and excellent officers.

The H. D. Morton, loaded with Government freight for Fort Randall, was snagged in the Missouri river, two miles below Nebraska City, on Sunday, the 12th ult. She was run ashore immediately, pumps worked successfully, and the leak stopped without damage, except to two hundred sacks of corn, which composed the bottom layer of freight in the hold.

The St. Louis Democrat of Sunday says:

The river opposite, at the present time, is falling fast, having fallen between Wednesday night and last night at least 15 inches. It fell yesterday alone 8 inches. The last boats from the Illinois, report that stream falling from Peoria down. The upper Mississippi is also falling, and it is thought that the boats which have recently left with the intention of crossing the rapids, will fail in that purpose. The Missouri is falling again, having risen only a little—not enough to benefit navigation materially.

The Pittsburg Journal of Monday says:

Last evening at 9 o'clock there were 2 feet 4 inches water in the channel and rising slowly. There is now sufficient water for light-draught steamers.

AN AMERICAN SWINDLE IN PARIS.—The following paragraph is from a Paris letter to the New York Express:

Some months since an association was organized in Paris, calling itself a "Colonization Society," and claiming to own a million acres of land in Western Virginia. Grants of this land were sold at very low prices, and the bait was taken very well among the uncautious, when it was found that the title to the lands which the company claimed to possess was utterly worthless, the fact being that much of the lands were already occupied by people who had bought the property from the State of Virginia, under the law which enabled the Commonwealth to sell unclaimed real estate to pay taxes. In short, the whole affair was a swindle.

Bold Robbery.—On Monday evening, about half-past 9 o'clock, while Mr. John McElroy was in his store, some thief or thieves fastened him in by passing a stick through the latch of the door, and having thus prevented his egress, they broke the glass in a window having a glass casing inside, and seized a small chest which was lying by the window on a counter, and made off with it. The trunk contained thirteen packages of bank bills, of a hundred dollars each, and three hundred dollars in gold. This is the boldest, as it is one of the heaviest robberies which has taken place in this vicinity for a long time.—Boston Trav.

## THE KENTUCKY SCHOOL OF MEDICINE.

Under the present organization, this school opens with better auspices than at any former period of its history. Dr. C. W. Wright, professor of the chair of chemistry, delivered the introductory lecture of his course on Saturday night to a fashionable and highly intelligent audience of ladies and gentlemen. It being the first of the course the lecture was demonstrative. The influence of the atmosphere on the mental and physical organization of man was dwelt upon and fully elucidated. Ventilation, diffusion of gases, and many other interesting facts connected with public health were fully illustrated by numerous beautiful and striking experiments. Dr. Wright is an agreeable lecturer and a most accomplished physician. The School has reason to be proud of him as one of its professors.

ANOTHER DISASTER ON LAKE ERIE.—A telegraphic dispatch from Buffalo says that the propeller Spaulding, with nearly a full load of valuable goods, was burned on Saturday morning at the American Transportation dock at that port. Vessel and cargo nearly a total loss. The propeller was bound to Toledo. The total loss by the burning of the Spaulding, cargo and vessel, is estimated at \$90,000.

IS NATURALIZATION BY A COUNTY COURT VALID?—The question was answered in the negative last year, by Hon. James Harlan, Attorney General of Kentucky, and for the information of the officers of the election, we here republish his opinion:

OFFICE OF ATTORNEY GENERAL,  
FRANKFORT, July 26, 1855.

J. B. PAYNE, Esq., Newport, Ky.:

SIR.—The question upon which you desire my opinion, is whether the County Courts in this State, as at present organized, have the power to receive declarations of aliens, and on application, to admit them to become citizens of the United States?

By the 31st section of the act of Congress of 1802, to establish a uniform rule of naturalization, every Court of Record in any individual State having Common Law Jurisdiction and a seal and clerk, or prothonotary, has the power to adjudicate and carry into effect the provisions of that act and the several amendments thereto.

Each of the County Courts in this State has a clerk and seal, and is a Court of Record by the Statute creating them. Revised Statutes, 235. But are they Courts of Common Law Jurisdiction within the meaning of the act of Congress?

By referring to the Revised Statutes (page 234) and the Code of Practice (title 2, section 15 to 29 inclusive), it will be seen that the jurisdiction of a county court extends to the fiscal affairs of the county, laying and collecting a levy, erecting public buildings and bridges, appointing surveyors of public roads, the probate of wills, granting letters of administration, the division of lands and slaves, assignment of dower, establishment of ferries, cases of bastardy, &amp;c. But there is nothing in the law that authorizes the institution of an action, civil or criminal, or the filing of a bill in equity, or vesting it with any common law jurisdiction whatever.

The jurisdiction to try appeals from justices of the peace, given by the Revised Statutes, is taken away by the Code of Practice. So that a county court cannot, in any aspect, be regarded as a court of common law jurisdiction, for the trial of cases, civil or criminal, at law or in equity, and consequently is not one of the courts embraced by the acts of Congress to whom jurisdiction is given to carry into effect the laws relating to the naturalization of aliens. If my conclusions are right, it follows that certificates of naturalization—if any there be—granted by county courts are void. This opinion does not apply to the Jefferson County Court, because its organization is under a special act, different in many respects from the general laws concerning county courts.

I am, very respectfully,  
Your obedient servant,  
JAMES HARLAN,  
Attorney General.[For the Louisville Journal.]

Four Days from Lecompton.—We saw, on Saturday afternoon, Mr. Harvey, for a long time connected with the Friends Mission in Kansas, who left Lecompton, K. T., only four days before. He says that the grand jury had found indictments for "murder in the first degree" against most of the hundred and nine Free-State prisoners, but three had been discharged for want of evidence. It was reported at Lecompton that Gary said he would pardon them if convicted.—Ind. Journal.

PHILADELPHIA, Oct. 31.

Messrs. Bucknor, McCammon &amp; Co., A. J. Lewis, Isaac Elliott, McCure Robinson, Danenhower and Harris, Stacy B. Bancroft, Joseph Grats, Dr. J. K. Mitchell, Joseph Cabot, Wetherill Lee, Arthur G. Coffin, and a large number of other eminent citizens, have issued the following address:

To the Old-Line Whigs and Feltmore Democrats of Pennsylvania.

It being now a settled fact that the friends of Millard Fillmore are determined to stand by their candidate, and have no connection with any other organization, and we can thus vote for Millard Fillmore on broad national grounds, we call upon all conservative national men of Pennsylvania, who are opposed to the principles of the Cincinnati platform and the Ostend policy of its candidate, to unite with us in support of the true Fillmore and Donelson electoral ticket, headed with the name of Joseph R. Ingersoll, and sustain the man who knows no North, no South, no East, no West, and will stand by the Union and the Constitution, one and inseparable, now and forever. The tide is setting strongly in favor of the straight-out Fillmore electoral ticket all over the State, notwithstanding the efforts of the Republican wire-pullers to embarrass the American party. Our friends are confident of doing a good day's work on Tuesday next. There is encouragement for hope in the signs of the times.

CINCINNATI, Nov. 3.

At 10 o'clock this morning a derrick, erected where the Covington bridge work is progressing on this side of the river, fell, instantly killing Peter McKinney and injuring three others—one, it is thought, fatally.

ZANESVILLE, O., Nov. 3.

Cram's extensive flouring-mill, at Marietta, with contents, including 11,000 bushels of wheat, was destroyed by fire Saturday night. The loss is from \$30,000 to \$45,000; insured for \$5,000.

NEW YORK, Nov. 3.

The steamship Cahawba, from Havana, has arrived with dates to the 29th ult.

The steamship Tempest, from Glasgow is signalled below. Her dates are to the 11th ult. and have been anticipated.

CINCINNATI, Nov. 2.

A numerous and spirited Republican mass meeting is being held to-night, and addressed by Hon. Thos. Corwin, Gov. Chase, and L. D. Campbell.

PITTSBURG, Nov. 3.

Jos. H. Kuhns, of Westmoreland, has telegraphed here denying having withdrawn from the Fillmore straight out electoral ticket.

ALLEN CHAPEL STONED AGAIN.—We are informed that the delegation from the Thirteenth ward, to the Democratic meeting at Fifth street market square, Saturday night, on their return home, took occasion to pass Allen Chapel—the church of the negroes, which was stoned about the time of another Democratic demonstration—and halting in front of it, gave cheers for Buchanan and poured in volleys of stones, smashing the windows again. A more dastardly, brutal, and shocking exhibition of low flung scoundrelism, was never made. The poor people of Allen Chapel have not in any way wronged or interfered with the rowdies who persecute them but have, we believe, quietly and humbly attended to their own business. In no southern city would such atrocious outrages as the congregation of Allen Chapel have suffered be tolerated. If any set of loafers should go about stoning the churches of colored people in Charleston, they would be attended to with some energy.

But here a riot occurs in front of Allen Chapel, the congregation flies in terror in all directions, amid showers of stones, the officers come up after the disturbance is over, and find a few negroes with stones in their hands, prompted by the instinct of self-defence to seize upon something with which to strike a blow—the negroes are arrested—the rioters are not found—and the police judge fines the negroes. The outrage is repeated. Could not some "indefatigable" officer find a stray negro somewhere of whom to make another example? The procession is dissolved, and no one of our uniformed officials could find a fragment of it, even if given the most positive "instructions." But the church is there. Why not have it indicted as a nuisance because it provokes the throwing of stones?—Cin. Com.

## DALLEY'S MAGICAL PAIN EXTRACTOR.

There never has been a discovery made in Materia Medica, whereby pain can be so quickly allayed, and where parts of high state of inflammation can be rapidly reduced to their natural state, nor where wounds and sores can be so thoroughly and rapidly healed, and decayed parts restored without either scar or defect, than with DALLEY'S MAGICAL PAIN EXTRACTOR.

Cuts, Wounds, Sprains, and Bruises—casualties of which children are constantly subject—the action of the DALLEY'S PAIN EXTRACTOR is so powerful, and so gentle, that it will make them feel no more pain, and suffering may not thus be prevented. Moreover, it is itself so dependent upon having at hand the Genuine DALLEY EXTRACTOR, and for particular of which I respectfully refer to my printed pamphlets, for the truth of which I hold myself responsible.

No case of Burns and Scalds, no matter how severe, has ever yet, in any one instance, resisted the all-powerful, pain-subduing and healing qualities of the DALLEY'S PAIN EXTRACTOR.

TUESDAY EVENING, NOV. 4, 1856.

**LOUISVILLE AND PORTLAND CANAL.**—A general impression seems to prevail that this work has passed into the custody of the United States, and that the cost of its late important improvements has been defrayed by the Government. We learn from one of the Directors of the Company that this impression is erroneous.

In the year 1842, at the instance of the individual stockholders, the Legislature of Kentucky amended the charter of the Company, providing that the entire net receipts of the canal should be applied to the purchase and extinction of the individual stock; that, so soon as the same should be so extinguished, the Board of Directors should offer the work to the United States, and that thereafter no higher tolls should be charged than would be required to raise a sum sufficient to keep the canal in repair and defray the expense of its management. If the United States declined to receive it, the Board were then to offer it to the State of Kentucky, and, if declined by the State, they were to offer it to the city of Louisville.

In January, 1855, the Board announced to the Treasury Department that they were prepared to extinguish the remaining individual stock, and to transfer the work to the United States. The Secretary of the Treasury replied that it could not be received until Congress should pass an act authorizing it, and requested that the President and Directors of the Company should each continue to hold one share of stock, so that the corporate organization might remain, and the Board continue to manage the work until Congress should furnish authority for its reception by the United States. Thus the matter yet stands. The Board is composed of James Marshall, President; G. W. Meriwether, J. H. Rhorer, Chas. H. Lewis, and Chas. W. Short, Directors.

In February, 1855, the Board reduced the toll to 25 cents per ton, a rate deemed adequate to raise a sufficient sum to put the work in proper repair. The net amount that had accrued up to the 1st of August, 1856, was about \$87,000, whereupon the canal was closed and a thorough repair commenced.

The canal has been in use about a quarter of a century, and this is the first effectual cleaning it has ever had. It is not surprising, therefore, that in some places the loose stone, broken wheel-timbers, sand, &c., had accumulated to a depth of four feet. It was generally found about three feet. The side ledges of stone, from four to eight feet in vertical thickness, and projecting from six to twelve feet within the lines of the canal, have now been blasted off and removed, leaving the walls perpendicular to the base line and making the narrow passes from ten to twelve feet wider. Two spacious basins have been completed, by the use of which boats meeting may pass each other. This is a most valuable improvement, as it will prevent the vexatious delays to which boats have so long been subjected. The locks have been thoroughly repaired. A side wall of one of them has been entirely rebuilt with new masonry. A strong guard-gate has been built near the head of the canal, by which the water can hereafter be shut off at any moment. The defective slope pavements have been substantially repaired. Some of them have been replaced with new masonry, and the stone bridge, that abomination in the sight of all steamboatmen, has been taken down and removed and a pivot bridge, to replace it, is in process of construction.

Altogether, these improvements have required a vast amount of labor, and it surprises every one that they have been carried to completion in so short a time. The Company was very fortunate in securing the services of Edward Watts, Esq., of Carlisle, Pa., a very able civil engineer, of great practical experience, under whose direction and superintendence the work was placed, and he certainly deserves the warmest thanks of the steamboatmen, and indeed of the entire West, for the admirable manner in which he has carried it through. He has converted what was literally an obstruction into one of the best canals in the country.

We are pleased to learn that the Company have engaged Mr. Watts to make a survey for a branch canal, with a new set of locks of sufficient dimensions to admit the larger classes of boats. We are assured that this may be done at a comparatively light cost, and it is believed that if the plan be properly presented, now that the entire West is united in favor of such an improvement, Congress will not deny the trifling appropriation it would require.

**HANDSOMELY DONE.**—A young married pair arrived in the city yesterday, from Buffalo, whose departure from that place was attended with a scene whose unpleasantness was aggravated by its publicity. The bride is the daughter of a wealthy and aristocratic merchant in Buffalo, and one of the most lovely and accomplished women of that city, where loveliness and accomplishments seem natural to their sex. The husband is a very respectable young gentleman, every way save in wealth an equal to the lady. The marriage, being opposed by the lady's father, was privately solemnized by a clergyman yesterday morning, and the bridal party had just arrived at the railroad depot to take passage for New York, when they were overtaken by the brother of the bride, who did not know of their marriage, and was led to believe that his sister had sacrificed herself. A rencontre ensued between him and the husband, during which he (the brother) drew a pistol. It was immediately taken from him and fired in the air by the groomsmen, who was in attendance, and the parties separated by him and another gentleman. The husband then claimed an explanation with the brother, exhibited the marriage certificate, and at once relieved his fears. The brother then ran to the father, who hastened to the cars, read the certificate, fretted a little, as old men generally do when called up too early in the morning, granted his blessing to the happy pair, and got ashore just as the last bell rang.—*Albany Knickerbocker.*

**EXPEDITION TO THE SOUTH ATLANTIC.**—The U. S. storeship Release, says the Boston Journal, one of the vessels of the Hartstene Expedition in pursuit of Dr. Kane, has been selected by the Government for the purpose of visiting the American shores of the South Atlantic, to procure sugar cane and seeds under the appropriation of \$75,000 which was made for that object at the last session of Congress. The mission is entrusted to Lieut. Chas. O. Simms, U. S. N., who was second in command of the Hartstene Expedition, and he will sail from New York in command of the Release in the course of a week or ten days. It is expected that she will visit the shores of Central and South America, as well as many of the West India Islands, and return early in the next spring.

[Correspondence of Commercial Advertiser.]

LONDON, October 17, 1856.

The position of the money market is unchanged. Some accounts from Paris represent that the pressure upon the Bank of France is diminishing, but they are too vague to excite much confidence. Here the demand for gold for exportation, and the consequent influx of foreign paper for discount, is unabated, and there have even been apprehensions of a further rise in the rate. These were premature, but the Bank have not altogether abstained from increasing the existing restrictions. In ordinary circumstances they have usually been willing to advance money on Government stock on the same terms as those at which they have taken commercial bills, but the day before yesterday they refused to make loans of this kind for a longer period than seven days, and yesterday they announced that they would refuse them altogether.

This determination produced a renewed fall on the Stock Exchange. Consols, which at the last date, were quoted at 91½, had suddenly recovered to within a fraction of 92, owing to a report, which obtained general circulation yesterday morning, that the Bank of France had resolved to suspend specie payments, and, just as a reaction was commencing from a non-confirmation of the rumor, the notification from the Bank on this date became known, which hastened the fall, which continued until they reached 90½. To day there has been a better feeling, and the final quotation is 91½.

The question whether the crisis is to continue depends entirely on the course of events in France, and, as the influences in operation in that country are in a great measure the results merely of panic, any attempt to solve the problem must be vain. All persons here see that there is nothing to be done, but to wait day by day the quotations from the Paris Bourse, and the reports as to the fluctuations in the amount of bullion in the Bank of France and its branches. In this country, everything is sound, and the fact is confirmed from all quarters that there never was a period of such general activity, combined with so complete an absence of unhealthy speculation.

The movements in the discount market fail to produce the slightest effect on the prices of produce or of the industry of manufacturer; and out of the region of the stock exchange no one would be aware, from any unusual signs, that the course of financial affairs was experiencing the slightest disturbance. At the departure of the last packet there was a statement that the Bank of France had contracted with Messrs. Rothschild to supply them with \$32,000,000 of gold, as fast as the means could be found. It is now said that a contract has been made, but that its exact amount is not known. According to some persons it is not more than half the total originally mentioned. All that is positively ascertained is that orders have been sent not merely to London, but to various parts of the continent, but to N. York, to buy up all that can be procured. Whether the means employed for obtaining it include the raising of money on the hypothecation of stocks, or the sale of sixty days paper created for the purpose, is a point which will doubtless give rise to some interesting conjectures.

Amid all the confusion, the remarkable fact of the total absence of commercial failures, not merely in England and Germany, but in France, where all the mischief originated, is still presented. Not a single rumor of difficulty of this kind has yet been heard.

The Bank of Amsterdam yesterday raised its rates of discount to 5 per cent. Up to the end of last month it had stood at 4 per cent.; but it was then advanced to 4½.

The uneasiness on the continent regarding the displacement of silver by gold is increasing, and, as the point is wholly independent of the existing crisis, it must continue to attract attention, even after the prevailing embarrassment has subsided. Austria is believed to contemplate the adoption of a gold standard whenever she returns to specie payments, and at Hamburg the Board of Commerce have just recommended the substitution of that metal for the existing silver currency.

The intelligence of an ultimatum having been forwarded by France and England to the King of Naples has been confirmed; and it was expected to reach him yesterday. It is represented to be of a very moderate character, but his Majesty is said to have determined upon a high course, such as becomes a Bourbon. His courage is perhaps stimulated by the belief that Louis Napoleon would be no less frightened than himself at the prospect of a revolution in Italy; and that under these circumstances, coupled with financial distress in Paris, there is no reason to apprehend anything beyond make-believe measures. According to some accounts, France has stipulated, that, although the combined fleets are to cruise off Naples, they shall not approach close to the city, as she believes that by this means all danger of an outbreak may be avoided.

Accounts from Australia show that the gold production of the first half of 1856 has realized the expectations expressed at the beginning of the year. It was then said that a total equal to \$60,000,000 might be relied upon in the twelve months. The actual shipments for six months appear to have been \$31,600,000. Last year, in the same period, they were \$23,600,000.

The report of the Liverpool cotton market for the week shows continued firmness. The wheat market has remained without alteration. The next steamer from this side will be the Fulton, on the 22d. SPECTATOR.

**A Duel in Texas.**—Wm. Autry, known as "Dock Autry," and Wm. Carson, fought a duel eight miles below Seguin. They used double-barrel shot-guns and six shooters, and commenced at 120 paces apart, and continued advancing and firing until within six or eight feet, when Carson was shot through with a six shooter and died in two hours. Autry was not hurt, but some buckshot struck him upon the first fire, too much apart to do any injury, and a pistol shot passed through his vest and shirt, just missing him. Autry immediately left, and was pursued by the sheriff of Guadalupe county, and overtaken six miles from Seguin and brought back. We learn that several others are implicated as seconds.—*Austin State Times, Oct. 11.*

The London Times thus pleasantly and cleverly commemorates the last small end of the Central American question:

Political and national events are apt to be small in their beginnings and in their endings. In shape they are pointed at both ends, and bulge out in the centre. They make very little noise at first; then they get to be understood, excite attention, create discussion, and form the subjects of debates in Parliament; then they gradually withdraw and disappear from the public eye, an occasional allusion in the public press just keeping up a faint shadow of existence till at last every trace is gone. They are emblematic, in short, of human life, which is brought up in the quiet of the nursery, is next found making a great show in Parliament or at the bar, or on the field of battle, and finally withdraws into the retirement which precedes the grave. The great Central American question has gone through the first and is now in the last of these stages; having widened out from a very small point it has now arrived at a point again, and, having started in the retirement of the nursery, in which it was training for the noise and publicity which it subsequently attained, it has now entered on the retirement which precedes a total demise. How difficult it was to attract any sort of attention to it at first! It was in vain that the press put on a grave look, or told its readers that there was more in the matter than they thought, that it might have serious issues, and that the little cloud which was less than a man's hand might herald a storm. In spite of all warnings, the public would not for a long time either understand or care anything about Central America. Half the world did not know what Central America was, and it was too much trouble to look it out on the map. This was the nursery of the Central American question. Then gradually the public ear was caught, the contents of blue-books were exposed, fresh dispatches came in, questions from time to time were asked in Parliament, an ambassador was dismissed, the affair assumed an air of importance, the press were full of it, everybody talked of it, and it arrived at its climax in the shape of an exciting debate in the House. That was the middle life of the Central American question. The second retirement then followed, preliminary to a demise, in which a passing allusion in the columns of American intelligence was all that remained of former greatness; and now the fatal goal is reached.

Our readers may or may not have observed in the column of American intelligence in Monday's impression a document with the names of Clarendon and Herran appended to it. This was the copy of a convention between this country and the State of Honduras, in Central America, and the purport of it is that the Bay Islands, near the coast of Honduras, are constituted a free territory under the sovereignty of Honduras, this country withdrawing from all claim of possession. This document, with an English and an Honduras name to it, finishes the great Central American question. Alexander's dust is up a bung-hole; the charges and recriminations of Government, the rhetoric of Congress and the House of Commons, and the talk of the political world, repose in this little arrangement with a snarl, obscure, and remote Republic. We must observe that due attention seems to be given in this document to the importance of securing a neutral and independent neighborhood to the important isthmus which divides the two great oceans, and to the canal which will probably before long cut it. The interests of the whole commercial world require an independent neighborhood there as a security for free and uninterrupted commerce. The Republic of Honduras engages "not to erect, or to permit to be erected, any fortifications on the said islands, or any other islands in the Bay of Honduras;" and the "contracting parties agree to communicate the present convention to all other maritime Powers, and to invite them to accede to it."

**THE LONDON TIMES HOAXED.**—In a summary of the news by the latest arrived European steamer, we find the following:

Some wag has imposed on the London Times a most extraordinary hoax on the subject of railway traveling in the Southern States. The wag signs himself, "An Eye-Witness," and, although his story is densely confused, its substance is, that, traveling recently in the cars between Macon and Augusta, Ga., two young men, A. and B, fell in love with two young ladies; had a difficulty on the subject; C. proposed they should fight it out; whereupon a general discussion upon dueling arose; conductor stopped the train for D. and E. to fight, and E. was killed; C. afterwards challenged G., went into a smoking car, and killed him. H. then seized a little boy, son of the slain C., took him upon the platform, killed him, and threw him over; whereupon conductor again stopped cars, and I. killed J; K. wanting to kill L, but, being behind time, conductor went ahead and reached Macon O. K. This story is going the rounds.

**A Child Eaten by a Bear.**—Near Rocky Point, in Greenbrier county, Va., on Thursday week, at the residence of Wm. T. Mann, George Fox, about 15 years old, was instantly killed and partly eaten up by a large bear, belonging to Mr. Mann. This boy had on the day previous killed a ground-hog, and in carrying or skinning the same got some blood on his clothes. Not having changed his clothes, the bear, probably excited by the scent of the blood, lay hold of him around the body and squeezed him until his ribs were broken, then knocked him down with his paw, and eat very nearly all the flesh off his face and legs before he was dead. There being no one about the house but a lady, she was unable to relieve him.

**MARRIED.**  
On the 3d inst., by the Rev. J. V. Schofield, Mr. Jas. H. Wolcott, to Mrs. E. Higgins, all of this city.

**A BOOKSTORE FOR SALE.**  
A RARE CHANCE.

The advertiser, having determined to remove to the West, offers his stock, fixtures, and lease for sale. The stand is one of the best in the city—the rent remarkably low—the business well-established and profitable, possessing peculiar advantages. The stock is well-assorted and fresh. Such an opportunity for investing a small capital does not often occur. Address Box 36 Louisville Post-office. n3j&bt

**For Sale.**  
On Monday, the 1st day of December Circuit Court, I will offer for sale at public auction, in front of the Court-House, in the city of Henderson, between the hours of 10 and 2 o'clock, my PLANTATION, containing 634 acres of land, 300 acres of the above are what is designated black flat of the best description and well drained. The upland lies remarkably well, and is acknowledged to be one of the best in the country. The water is excellent, and throughout the present season (the driest ever known) there has been an ample supply for every purpose. The dwelling-house contains 6 rooms, and, with very little expense, can be converted into stock-houses if desired. There are 2 good corn-cribs, a good stable, 3 negro-cabins, besides a commodious kitchen and 3 shaded tobacco barns (usually converted into stock-houses if desired). This Farm lies 5 miles south of Henderson and within 2 miles of Towles's landing, on the Ohio river, with a good road to both places. Any one who wishes to examine the premises previous to the day of sale will apply to the undersigned. Terms made known on the day of sale. P. S. The land can be rendered more profitable by adding two tracts of 31½ acres, with a sufficient amount of timber for each tract, and there are 3 apple orchards, containing a variety of choice fruit trees in full bearing. nov 4 1856 RICH'D GARLAND.

**A PERFUMED BREATH.**—What lady or gentleman would remain under the curse of a disagreeable breath when by using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth light and morning. A fifty cent bottle will last a year.

**A BEAUTIFUL COMPLEXION** may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples, and freckles from the skin, leaving it of a soft and rosy hue. Wet a towel, pour on two or three drops, and wash the face night and morning.

**SHAVING MADE EASY.**—Wet your shaving-brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," rub the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving.

Price only 50 cents. Fetridge & Co., proprietors. R. A. Robinson, J. S. Morris & Sons, and Bell, Talbot, & Co., agents for Louisville Scribner & Devol, agents for New Albany. apr 1 & ahead & wewoly

**A BIG MAJORITY.**—A unanimous vote in these days of high political excitement, when the whole country is divided and subdivided into political and religious organizations, is a result scarcely expected by many persons. But that such an event has really occurred is clearly proven. And it is an undeniable fact that on one subject the vote is unanimous, and that all parties, old and young, native and foreign, bond and free, who have tried Porter's Oriental Life Liniment, pronounce it to be a valuable remedy for the relief and cure of rheumatism, pains in the back and shoulders—it has been used with the greatest success by thousands—and for the permanent cure of old sores, tetters, ringworm, bruises, cuts, sprains, and frost-bites it is infallible. o31 j&bt&wt

**HOW IS IT**

EVERYBODY wants one of TROXELL'S beautiful AMBROTYPE! Some months ago the 4 different humbug agencies set up by artists to deceive the public attracted considerable attention but now they have attracted how easily it is to be humbugged when a name, and all other pictures made on glass in Louisville except at Troxell's Gallery are not only inferior in quality, but also inferior in price, and liable to fade. Citizens and strangers are particularly invited to call before going elsewhere.

Instructions given in heart for \$50.

Also, rights for sale to the State of Kentucky.

W. L. TROXELL, Ambrotypist, Main St., between Second and Third, June 10th 1884. over House's Printing Telegraph Office.

**HARRIS & CO.,**

**Photographers,**

477 Main Street, Louisville.

SOLICITORS in their line, which they guarantee to do with as much accuracy, taste, and general artistic merit as can be done anywhere in the United States. Photographs colored and uncolored, on paper, canvas, or wood, or on any other substance, from a breastpin to a large size, to suit the taste of the customer. Mr. Edwards' entire attention is given to this branch of photography.

**Colloidotypes,**

This new and beautiful style of picture, superior to the Ambrotype, on account of its greater permanency, is taken in from one to six seconds, and is particularly advantageous for children.

Mr. Edwards' entire attention is given to this branch of photography.

**COAL! COAL!**

THE subscriber, thankful for the patronage heretofore extended to him by his friends and the public generally, respectfully informs them that he has just opened a Coal Yard and Office on the corner of Fifth and Green streets, where, by strict attention and punctuality, he still hopes to receive liberal shares of public patronage.

He keeps always on hand the best quality of White Pine and Youghiogheny Coal, which is warranted to be what it is represented.

He also keeps the best quality of Nut Coal, delivered to any part of the city for a small per bushel, used by some of the best families; none better for steam.

Also, an Office on Market St., bet. Sixth and Seventh.

1884. E. F. LEZNER.

**COAL! COAL!**

THE subscriber, thankful for the patronage heretofore extended to him by his friends and the public generally, respectfully informs them that he has just opened a COAL YARD and OFFICE on the

JEFFERSON COUNTY.

Shardine's, 11 o'clock, 32 majority for Fillmore.

The election has thus far passed off quietly. At the Sixth Ward poll a Irishman drew a revolver and was knocked down. One or two small fights occurred at some of the other polls.

**LOVE AND SUICIDE—Truth Stranger than Fiction—Infatuation.**—We yesterday noticed the arrest, on a charge of bigamy, of a woman named Elizabeth Seely—the charge having been preferred by her husband, Joseph Seely. A hearing was had, and in default of \$1,500 bail she was committed, but afterwards released at the request of the complainant. Mr. Seely at the time manifested the most ardent attachment for his wife, and seemed to be anxious to place her in a proper position, although wavering between love and justice. She was at length allowed to depart, and the matter was lost sight of until to day.

At about 9 o'clock this morning, High Constable Trefts, while passing through Independence square, noticed a man, apparently intoxicated, staggering along one of the walks. He approached and recognized him as Mr. Seely, and, thinking there was something strange in his appearance, asked a few questions as he was about being seated. The answers and the motion of the man, who was trying to secrete something in his pocket, induced the constable to inquire "what he had there" and by a quick motion to jerk his hand forward. He then discovered a two-ounce phial, labelled "laudanum," and Seely immediately confessed to having taken all of its contents except a very small quantity remaining in the bottom.

Seely was conveyed to the Mayor's office, and medical assistance sent for. Dr. S. P. Brown arrived and administered proper medicine, the man being at the same time kept in active motion, and shortly after the patient was so far recovered as to induce every hope of his ultimate restoration to health. So much for the plain, unvarnished facts in the case, but more was ascertained in connection with the subject.

Yesterday afternoon, after the issue of our sheet, we received a letter from Joseph Seely, confirming the facts of the bigamy charged, as we had stated them, and giving many reasons for his apparently singular conduct. It is stated that an invidious and designing friend had acted a cowardly part towards his wife; that she favoring him, had deceived her husband and joined in a plot by which she was to flee to Liverpool; that Seely, on hearing of this plot, had procured her arrest in order to detain her in this country, and that the action had been taken entirely through his affection for her.

This morning, upon the would be suicide, after his rash act, another letter was found by a prying individual, directed to the wife. It was one of the most touching epistles that we have ever read. Its whole tone was one of the utmost tenderness and sensitive feeling. The date was this morning, and the avowed intention was to commit suicide, and the object of the letter to declare his forgiveness and bid her a final adieu. The document is before us, but its morbid secrets would interest only the morbid seekers of the horrible, and be a libel upon the finer feelings of the heart.

Seely, it appears, is an Englishman by birth, and in his native country was the owner of a farm, upon which in early life he resided. He served for two years and a half in the commissary department of the British army in the Crimea, and was at the battle of Inkermann and the storming of Sebastopol. He escaped without a wound. He came to this country and visited Albany, N. Y., where he was introduced and married to the person with whom he is now so infatuated, and who lived at Binghamton, N. Y. This took place a few weeks ago.

After marriage the couple came to this city, and the husband ascertained, by the admission of his wife, that she had been previously married, but that her former husband had deserted her and taken another spouse, and that she had lived an immoral life afterwards. While they were sojourning in this city she left Seely, with some person at present unknown, and this proceeding induced him to have her arrested for her acknowledged crime, bigamy, as stated. The course of events since, we have narrated.

About noon, to-day, the unfortunate man, who had partially recovered from the effects of the laudanum, attempted again to take his own life, by strangulation with his handkerchief, while in the cell. He was fortunately detected in time to avoid fatal results. He will be sent to the almshouse or the hospital. We have never before met with so strange an instance of infatuation as this just recorded.

**EXPORT OF BRITISH CATTLE TO THE UNITED STATES.**—During the past week there were shipped from Liverpool for New York, on board the Antarctic, Capt. Stouffer, a most valuable cargo of horses, cattle, sheep, and pigs. Prominent among them were some splendid Southdown sheep from Mr. Luger's flock, as well as the shearing ram bought at his sale for 80 guineas. These are for Mr. R. A. Alexander, of Kentucky, a gentleman whose name stands high as a great purchaser of our best animals, and who, in a recent visit to this country, bought the celebrated horse Scythian, by Orlando, winner of the Derby (by Touchstone), one of the best stallions this country ever produced, whose pedigree and performances are well known in the sporting world.

He was winner of the following prizes: Newmarket Stakes, £350; Dee Stakes, Chester, £750; Goodwood Stakes, £950; the Newmarket Royal Stakes, £1,240; the Chester Cup, £2,775; Stockton, £380; Goodwood, £539. This valuable horse, for which Mr. Alexander gave 1,500 guineas, accompanies the above cattle.

**HORRIBLE AFFAIR—A Gentleman Scalded to Death by His Own Servants.**—It was announced in last Saturday's Express that Lewis B. Norwood, Esq., an influential and widely known merchant of Granville county, N. C., had come to his death on the night of Tuesday, the 21st inst., in a sudden and mysterious manner. About his usual hour of retiring, 9 o'clock, his overseer left him in his chamber. He was then in his usual health and condition, both of mind and body. Some two hours after, his negroes reported to the neighbors that he had fallen in the fire and been burned to death. The neighbors immediately assembled and found him a corpse. Burns upon different parts of his person were discovered, but his hair was not singed even, and his clothing was without a scorch. Under the circumstances, it was supposed that the burns must have been scalds from hot water. His two little daughters were asleep at the time in the chamber, but of course could tell nothing of the sudden and mysterious manner in which they had been deprived of their protector.

An examination being instituted, suspicion rested upon his negroes, and it is now ascertained that he was foully and shockingly murdered by two of the slaves. From such facts as we have been enabled to gather, it seems that a negro man belonging to him had for some time absented himself. Mr. Norwood suspected that two of his negroes were harboring the runaway, and, to prevent a continuance of the practice, had for several nights previous to his murder locked up the two suspected in an out-house on his premises. On the fatal night, however, he was smothered by a blow, and a large pot of boiling water, which had been prepared for the purpose, was poured through a funnel down his throat until life became extinct.

He was then conveyed to his chamber, and the neighbors apprised of the death, as we have stated above. We understand that two of his negroes have been arrested and are now in jail. Others probably will be implicated as participants in this diabolical outrage. It is one of the most cruel and atrocious murders that we have been called upon to record, and we sincerely trust that the fiendish perpetrators may pay the penalty of the horrid crime by a forfeiture of their lives.

Petersburg (Va.) Express, Oct. 30.

**Destruction of a Ship by Fire.**—The bark N. Boynton, which arrived yesterday from Marcellus, brought to port Captain Lewis and the crew of the Southern Belle, of Beverly, which had been destroyed by fire on the passage from Liverpool to Boston. Capt. Hosmer, of the N. Boynton, reports that he spoke the ship on the 16th inst. in lat. 44 03, lon. 50 03; and on the 17th, at 12 M., saw a ship to windward, running for him, and on her approaching she proved to be the Southern Belle, on fire. The bark laid by her for the condition of the ship to be ascertained, and on opening the hatches she was found to be on fire and full of smoke. The crew secured what provisions they could and went on board the ship, and at 8 P. M. the flames broke out in a mass. They laid by her until midnight, and at 3 A. M. the flames suddenly disappeared. The Southern Belle was a fine vessel of 1,193 tons register, built at Marblehead this year, and valued at \$60,000. She had a valuable assorted cargo, a portion of which is insured in this city and the balance in Boston where the vessel is also stated to be insured.—N. Y. Jour of Com.
